

## NO QUEEN TO BOOST

Should Cleveland Attempt to Restore Lihouakalani

## SHE WILL BE TRANSPORTED

If Willis Uses Force His Executioner Will Be Sent Home.

SAN FRANCISCO, Nov. 19.—Today's Call says: "If United States Minister Willis insists upon the reinstatement of Queen Lihouakalani, the deposed queen of Hawaii, that the queen will be deported from the islands and the chance of that the executor of President Cleveland's envoy will be cancelled and he will be returned to this country as persona non grata. This is rather astonishing news, but it is a fact and is what the provisional government of the islands has decided upon."

This is probably founded upon the interview with ex-consul-general to Hawaii, Henry W. Severance.

"What will the provisional government do when a demand is made that the queen be restored?"

"They will probably at once cancel the executor of the minister making such an absurd demand and causing him to return to this country."

"And as to the queen?"

"No, nothing of the kind. There will be no reinstatement. She will be out of the country. She will have been deported."

"This movement was contemplated some time ago, was it not?"

"Yes," said Mr. Severance, "and it was even spoken of in the newspapers, but it was considered inadvisable, for then it was believed that the great United States would listen to reason and such harsh treatment would not be necessary. The provisional government now stands ready to carry out the suggestion."

"I should not be surprised were the queen deported the very next day," he replied.

"What if the United States attempts to put her on the throne by force by landing marines?"

"This country will never do that. In the first place the chances are that Minister Willis will find no queen 'to boost' on to the throne. No, there will be no force used. If Governor Cleveland should attempt such a thing the people of the United States would raise such a cry that he would at once be called to his senses. Mr. Cleveland's great mistake is that he does not know the calibre of the men he is dealing with. They are very bit as bright and clever as he."

Why Judge Sanford B. Dole, the president, could fill any office in the United States with honor and his ministers are equally capable. They are determined men, determined to give the islands a good, man government. The thinking people want them in power and they will remain there."

"About cancelling Mr. Willis' executor, can the provisional government do that?"

"Most assuredly. They formed an independent government, recognized as such by the different nations, and they refuse to receive a minister should they so decide."

"But suppose Mr. Cleveland should insist upon what seems to be his policy, and attempt to force the minister upon the islands and the queen upon the throne?"

"I tell you again he would not dare to do such a thing. The people of the United States would not stand it."

## WHY THE QUEEN ABDICATED.

Rumors Make a Serious Charge Against Ex-Minister Stevens.

CLEVELAND, Nov. 19.—A special dispatch to The Herald from Washington declares that the report of Special Commissioner Blount, now on file in the state department, and which is to be sent to congress when that body convenes, shows beyond doubt that the revolution in Hawaii was accomplished only by intervention on the part of United States Minister Stevens. "Commissioner Blount," The Herald dispatch continues, "did his work with great thoroughness. During the five or six months of his stay in Honolulu, he worked with a single purpose to ascertain the truth. He secured statements from members of the cabinet of the deposed queen, from members of the committee on safety, which brought about the revolution, from officers of the police and from other persons, including the queen herself. Gradually, Mr. Blount was able to reach the bottom of the affair, and when he did so he had no hesitation in declaring that the diplomatic representative of the United States had conspired against a friendly government. The report of Commissioner Blount is accompanied by affidavits from F. Wendenburg, deputy clerk of the supreme court of Hawaii, and S. M. Damon, president of the advisory council of the provisional government, in which it is stated that the queen abdicated on the ground that the matter should be reviewed at Washington. Commissioner Blount had a long interview with Mr. Wendenburg, who was also a member of the commission on safety, and who, though an unwilling witness, corroborated Mr. Wendenburg's story."

Commissioner Blount alleges that ex-Minister Stevens recognized the provisional government before the queen abdicated and this allegation is fortified by an affidavit from Charles L. Hopkins, Mr. Blount's representative in Honolulu, made recently for the purpose of producing the records of the legation relating to the affair, but he finally obtained them and Mr. Stevens then admitted he had recognized the provisional government before the queen abdicated and station house had been surrendered, that he did not consider the overthrow of any important move. Mr. Blount charges that the troops from the Boston were stationed near the palace for the purpose of compelling the queen into abdication of the throne, and this charge is back up by a report from the Honolulu Legation, in which he reports the minister's statement regarding the stationing of the troops.

"It was a wise move, as they could easily have been attacking him in the palace grounds from in front."

In a letter to the state department

## LEHIGH IS TIED UP

Only Mail Trains Allowed to Run, and the Strike

## MAY SPREAD TO OTHER ROADS

Men Have Ratified the Strike Ordered by the Grand Officers and Will Fight It Out.

WILKESBARRE, Pa., Nov. 19.—Thousands of men thronged the platform of the Lehigh Valley station all day today, and although nothing of an alarming nature occurred, the excitement was intense. Only mail trains were allowed to run today, the mails being carried on all kinds of mixed trains. The officials of the company are doing everything in their power to provide for the running of through passenger trains tomorrow, although their success has been, to say the least, indifferent. Crews who had not received their train invariably proceeded to the end of the run, in compliance with the law of 1877, which makes it a misdemeanor to abandon a train on the road. The same act also provides for the punishment by fine and imprisonment of any employee of another railroad who refuses to handle the cars of a railroad whose men are on a strike.

## THREE HUNDRED PERISHED

In the Storm Which Swept the English Coast.

LONDON, Nov. 19.—The storm which swept the United Kingdom all of yesterday, was still furious at 12 o'clock today. Throughout last night and this morning reports of shipwreck were received almost incessantly. The Vulture and the Besic, small steamers which took refuge yesterday in the harbor of St. Ives, on the Cornish coast, began dragging their anchors towards evening. Both signalled for help, but were unable to be seen in this terrible weather. They were driven ashore, and after two hours of perilous work the crews were rescued with life lines by the coast guard and fishermen. The steamers went to pieces in the tremendous seas which rolled over them in the night, and this morning not a vestige of either hull was seen. The people of the Orkney islands, off the north coast of Scotland, have suffered terribly. Many houses were unroofed, sailing ships and barns were leveled and hay stacks were lifted from the fields and blown out to sea. The packet Osprey was torn from her moorings and carried out to sea. She has not been seen since. The whole plantation of Dunrobin castle in Caithness, the most northerly county in Scotland, was swept clean to the ground.

Signals of distress were seen flying this morning from a vessel on the Goodwin Sands, off the Kentish coast. The fishermen on shore made repeated efforts to get lifeboats from the sea to the stricken vessel, but six were driven ashore this morning near Holyhead, off the Welsh coast. Four of them are breaking up. Six other vessels were making signals of distress. The York-shire coast is strewn thick with wreckage. Near Whitby three vessels went ashore in the night, and were going to pieces at noon. The crews were saved. The excursion steamers, Tern and Swan, which were at anchor at Windermere lake, county of Lancaster, when the storm began, were torn loose before daylight and both went to the bottom. Off Winterton, thirty miles north of Whitby, a schooner foundered shortly after dawn, and twenty-three men were carried away. The Norwegian schooner Arne sank off Flesja on the Yorkshire coast. Only one of the nine men aboard her was saved. The British steamer Princess, 1,570 tons, lying between Sunderland and Hull, went to the bottom in the night. She was carrying 1,000 passengers and 100 crew. A Swedish trader capsized off Scarborough, Yorkshire, and the eight men aboard her were lost. A Norwegian ketch foundered off Malin head, county of Donegal, Ireland, and the crew of eight were lost.
